The Safari Park Hotel
Nairobi, Kenya

FREE
for Operators
& Regulators

Promoting new models and services for the broadband era in East Africa

Key Reasons to Attend

- **More senior-level participants:** 500+ operators and service providers, regulators, investors, vendors, industry analysts - more than any other telco event in the region
- **Agenda that delivers insights on the whole telecommunication ecosystem:** fixed, GSM, CDMA, wireless, satellite
- **Un-paralleled speaker panel** - 35+ including CEOs of the region's leading operators and stakeholders
- **Over 16 hours of market-leader intelligence:** an interactive mix of the market's key issues debated in a mix of keynote presentations, case studies, analyses and panel debates
- **9 hours of networking time** face-to-face with the mix of the region's telco decision-makers

Bringing Together Decision Makers from:

Burundi • Comoros Islands • Djibouti • Eritrea • Ethiopia • Kenya • Rwanda • Somalia • Sudan • Tanzania • Uganda

"East Africa 2008 was simply a piece of class; as manifested by the wealth of presentations and presenters"

(MJ, Warid Telecom Uganda Limited)

Welcome...

Dear Colleague,

We would like to welcome you to the 5th East Africa Com congress, which is coming back to Nairobi, Kenya. This promises to be a lively event, with a wide array of speakers sharing their experiences of East Africa's ever-changing market. Please check pages 4 to 7 for details of the programme. The speaker line-up includes representatives of the whole East African telecommunications ecosystem, with the leaders of the region's most dynamic operators and ISPs, from large regional groups to smaller service providers and newly launched players.

Over two days, you'll have plenty of opportunities to network with your peers, share ideas and check out the latest innovations to grow your business in the 40+ strong exhibition.

We look forward to seeing you in Nairobi

Julie Rey, Head of Region,
Africa and Asia-Pacific,
Com World Series

What's new for 2009?

- > **New Keynote sessions, extra plenary speakers** on the morning and closing of Day 2 for a chance to hear from more high level speakers
- > **More interactive sessions: quiz industry thought leaders and join in the debate** with new panel slots and dedicated Q&A time
- > **New topics: a comprehensively updated conference agenda** following research, including convergence, broadband strategies, value-added services and more
- > **More of the region's telecommunications ecosystem represented:** more ISPs, more fixed and wireless operators, more CxOs, all under one roof for you to meet and do business with

"Best event I attended as great combination of technology and impact on social life in Africa"

(RL - Cisco Systems)

Mobile Middle East & Africa Intelligence Centre

The Middle East & Africa Intelligence Centre provides timely, comprehensive and authoritative coverage of the world's fastest growing regional mobile markets.

Core coverage includes:

- Mobile operator strategy
- New licence tenders
- Privatisations
- Merger & Acquisition activity
- Regulation

Top 5 Reasons Why You Should Attend East Africa Com 2009

- 1 The only event focused on East Africa's telecommunications industry;** including some of Africa's top 10 key growth markets – Kenya, Uganda & Tanzania
- 2 A comprehensive cross-section of the telecoms industry** for you to meet; all operators and service providers (GSM, CDMA, fixed-line, wireless, satellite), regulators, investors, vendors, consultants and more
- 3 Tailor the conference to your needs** with a wide choice of sessions and topics across two days: keynote sessions, panel discussions, case studies and expert opinion
- 4 Schedule meetings in advance and improve your connections;** make the best use of your time, and have access to new contacts pre- and post- event, thanks to a searchable online delegate list and meeting planner
- 5 Relax and network** in a comfortable setting: 9 hours of networking time, including our cocktail reception after the first day of the conference

Closing Keynote: Investing in East Africa's Future

"Fantastic forum to understand the regional market"

(JK, Flashcom)

Market Overview

East Africa – Pioneers of Converged Licences

East Africa is proving to be a pioneering sub-region in Africa in terms of convergence, with Tanzania, Uganda and Kenya accounting for three of the five African countries that have migrated to a converged-licensing framework.

In East Africa, **Tanzania pioneered converged licensing** in 2005, Uganda followed in 2007, and Kenya, in July 2008. Under the new systems, licences are no longer service-specific – i.e. for only mobile or fixed operations – or technology-specific, such as for GSM only. Instead, licences are typically awarded for the provision of services or infrastructure.

Mobile subscriptions in East Africa (million)

The evolution of technology has pushed regulatory authorities to adopt new frameworks,

which should bring an end to the controversies caused by divergent definitions of telecommunications services. Most operators had already offered multiservice platforms before the migrations: Alongside traditional PSTN networks, fixed operators had deployed CDMA wireless local-loop services, enabling them to provide fixed-wireless access alongside mobile services via handsets or data cards. Meanwhile, GSM operators became ISPs as soon as they launched Internet access over GPRS/EDGE networks or, more recently, 3G/HSPA. In Kenya, for instance, Telkom's move in 1Q07 to offer mobile services over CDMA was criticized by its mobile competitors, because the then-state-owned network did not hold a specific mobile licences, and Safaricom and Celtel (previously Kencell) had paid US\$55 million for theirs.

But the new rules are not being fully used. They were designed both to fit the evolving technology environment and to encourage competition by providing a means for operators to offer services without having to build their own networks. But the number of physical networks has continued to increase.

Uganda now hosts four mobile players,

with two more expected to launch by end-2008, and in Tanzania there are six players. In Kenya, three operators offer mobile services, two fixed-wireless-CDMA-network operators intend to launch mobile services by end-2008, and a new GSM player (Econet) is deploying its own infrastructure. All newcomers seem to be looking at rolling out their own equipment, but competition could still be increased if they operated instead as service providers or MVNOs over networks that are already deployed.

WECA top investors – Proportionate subscriptions 2q08 (million)

A perceived need to "control" one's own network and a lack of trust in potential partners are among the few reasons why a new operator would go through the long process and incur the cost of rolling out its own infrastructure rather than team up with an existing network. One of the few cases of **network sharing** among the main players in East Africa is in Tanzania, where Zantel users can roam on Vodacom's network. Zantel's licences was amended in 2005, enabling it to expand from its initial coverage of Zanzibar to mainland Tanzania.

Operators in East Africa and across the continent are becoming multiservice platforms, offering services such as **mobile money transfer**. Safaricom pioneered that service in Africa, when it launched M-Pesa in Kenya in February 2007. Tanzania became the second African country to host the service when Vodacom introduced it in early 2008.

Agenda Day One: Wednesday 1st April 2009

08.00 **Registration and Coffee**

WELCOME

09.10 **Welcome from Informa Telecoms & Media & Speed Networking**

09.25 **Special Welcome Address: Bringing Together East Africa's Whole Telecommunications Ecosystem**

Vitalis Olunga, Chairman, GSM AFRICA

Vitalis Olunga has been Chairman of the GSM Africa for the past five years now, and is a valued supporter of the East Africa Com event.

OPENING KEYNOTE SESSION: THRIVING IN INCREASED COMPETITION

KEYNOTE CHAIR: Michèle Scanlon, Founder & Principal Consultant, GREEN GIRAFFE

09.35 **Maintaining a Group's Leadership in East Africa's Rapidly Changing Market**

Confirmed: Bashar Arafah, Chief Operating Officer, East Africa Region, ZAIN GROUP

As Zain's Chief Operating Officer for East Africa, Bashar Arafah is responsible for overseeing Zain's operations in Kenya, Madagascar, Tanzania and Uganda. Part of Zain's (previously Celtel) strategy has been an energetic effort in East Africa. As a speaker at East Africa Com he will impart his vast experience of the state of the market, and where he sees opportunities.

10.00 **New Entrant Perspective: Finding the Right Model to Enter East Africa's Competitive Telecommunications Market**

Michael P. Foley, CEO East Africa, ESSAR TELECOMMUNICATIONS LTD & Director, ECONET WIRELESS, Kenya

Michael Foley is the Managing Director of Econet Wireless, a company owned by Essar Telecoms Holdings (at which he is CEO - East Africa). This coming April Econet launches their new brand - yu - in Kenya, as the country's 3rd mobile operator. Michael's presentation will discuss strategies for a new entrant to succeed in East Africa's competitive markets.

10.25 **Regulator Perspective: How Much Competition Should a Regulator Support and How?**

Mr Charles J.K Njoroge, Director-General, COMMUNICATIONS COMMISSION OF KENYA

Mr. Charles J.K. Njoroge is the Director-General and CEO of the Communications Commission of Kenya (CCK). He was appointed to the position in July 2008. He is an accomplished Economist with over 25 years' experience in ICT, and joined CCK at its inception in 1999.

10.50 **Question Time**

The first speakers of the conference will reconvene for an informal Questions & Answers session, giving the audience a chance to join the debate.

11.05 **Networking Coffee & Exhibition Visit**

LEADING CONVERGENCE IN EAST AFRICA

12.05 **Launching Converged Services in East Africa: Operator Case Study**

Peter Reinartz, Deputy-CEO, ORANGE TELKOM KENYA

Peter Reinartz is currently deputy-CEO for Telkom Kenya. Following Telkom Kenya's acquisition by Orange Group, the operator will develop convergent services - mobile, fixed line and internet. Peter's presentation will be touching on the challenges and opportunities that will arise from this new partnership.

12.30 **Keynote Panel Discussion: Adapting a Mobile Operator's Strategy to Exploit the Opportunities of Convergence**

- Assessing the current status of converged service offerings in East Africa
- What are the business models and network strategies for triple play in East Africa?
- Understanding the challenges that face operators seeking a quick upgrade to converged services

Tushar Maheshwari, CCO, WARID TELECOM UGANDA

Other panellists tbc

13.05 **Analyst Insight: Forecasting Market Evolutions - the Impact of Evolving Regulation & New Operator Business Models on East Africa's Telecoms Market**

Thecla Mbongue, Senior Research Analyst, INFORMA TELECOMS & MEDIA

Thecla Mbongue is responsible for researching the telecoms industry in sub-Saharan Africa within Informa Telecoms & Media's Industry Research division. In her presentation, she will give an overview of East Africa's communications trends, with forecasts on future subscription levels and market growth.

13.30 **Networking Lunch & Exhibition Visit**

CONNECTING EAST AFRICA TO BROADBAND

**CHAIR: Guy Zibi, Principal,
AFRICANEXT INVESTMENT RESEARCH**

14.30 **Deploying Networks to Provide Internet Access:
The Rising Role of the ISPs**

**Shiletsi Makhofane, Acting Chief Executive Officer,
AFRICA ONLINE, Kenya**

Mr. Shiletsi Makhofane is the Acting Chief Executive Officer as well as the Chief Operating Officer of leading internet service provider Africa Online Holdings Ltd. He is presently responsible for all the Africa Online Operations in the Continent and new business.

ISP

14.50 **Overcoming International Connectivity
Challenges to Deliver Broadband Access to East
Africa's Telecommunications Market**

Senior Representative, **ERICSSON**

15.10 **Choosing the Right Network Technology for
Broadband in East Africa (3G, WiMAX)**

Senior Representative, **HUAWEI**

15.30 **Panel Discussion: How to Make Broadband
Deployment Affordable for Operators**

- Assessing the current levels of connectivity for the region
- When will operators begin to see the benefits of the TEAMS cable in East Africa?
- Which are the best technologies for providing broadband across East Africa?
- Evaluating the role of satellite in improving connectivity

(effect of increased competition)
Rene Meza, Managing Director, ZAIN KENYA

Joe Kimani, CEO, FLASHCOM, Kenya

Other panellists tbc

OPERATORS

16.10 **Networking Coffee & Exhibition Visit**

16.50 **Technology Solutions to Deliver Broadband in
East Africa**

Senior Representative, **ALCATEL-LUCENT**

17.10

**Deploying Networks that Deliver Reliable
Broadband Access to East Africa**

Ali Bin Jarash, CEO, CANAR TELECOM SUDAN

Mr Ali Bin Jarash is the CEO for Canar Telecommunication Co.Ltd., Khartoum -Sudan. He has more than 15 years experience in Etisalat, UAE, and his presentation will discuss the opportunities for CDMA services in East Africa.

OPERATOR

17.30

**How CDMA and WCDMA can Serve the Needs of
Operators and ISPs in the Region**

**James Munn, Vice President Sub Sahara Africa Region,
QUALCOMM**

17.50

Networking Drinks

Join other conference delegates at our cocktail reception and continue the day's debate in a relaxed and informal environment. The networking drinks offer extended opportunities for networking and building business relationships and form an important and popular part of the East Africa Com experience.

**The best event to network with your
peers and make contacts in East Africa:**

- **9 hours of networking time** over two days packed with business opportunities
- **Speed Networking:** start the conference with a series of quick introductions to meet your colleagues and make contacts
- **Networking Drinks Reception** after the first day of the conference to discuss the day's proceedings in a relaxing setting
- **Networking Refreshments and Lunch** to share ideas with colleagues while enjoying Nairobi's hospitality and cuisine
- **Online Networking Tool** to schedule meetings in advance and improve your connections before, during and up to three months after the event

Agenda Day Two: Thursday 2nd April 2009

08.30 **Registration and Coffee**

09.20 **Welcome to Day Two**

OFFERING SERVICES THAT REALLY ADD VALUE

KEYNOTE CHAIR: Michèle Scanlon,
Founder & Principal Consultant, **GREEN GIRAFFE**

09.30 **Case Study: An East African VAS Success Story**

Michael Joseph, CEO, SAFARICOM, Kenya

Michael Joseph is the CEO of Safaricom Limited and has been in this position since July 2000. He recently accepted 2 Africa Com Awards for Safaricom's great progress in the African telecoms markets. One was for "Changing Lives" with the M Pesa mobile money service.

OPERATOR

09.50 **Service Innovation Think Tank: Delivering Attractive Services to East African Markets**

- What are the challenges facing East African operators when it comes to monetising services?
- Assessing the evolution of content services in East Africa's market so far
- What type of services are most likely to generate revenue and increase loyalty: finance, content, roaming, messaging
- How successfully are operators targeting the low-end market with innovative offerings and tariffs?

Irene Charnley, CEO, SMILE COMMUNICATIONS, Uganda

Simon Davies, Product Line Manager, ESERV GLOBAL

Other panellists tbc

10.20 **Offering Services that Attract and Retain Customers: Operator Strategy**

Noel Herrity, Director General, ZANTEL, Tanzania

Noel Herrity is Director General of Zantel, one of the 4 operators in Tanzania. His specialities are strategic vision, competitive repositioning, acquisition strategy, and Mobile & Internet start-ups. His presentation will cover his experience of successful VAS strategies in Tanzania.

OPERATOR

10.40 **Technology Solutions for VAS in East Africa**
Senior Representative, NOKIA SIEMENS NETWORKS

11.00 **Networking Coffee & Exhibition Visit**

Enjoy refreshments in the Exhibition before the session splits into two specialist streams.

A: Commercial Strategies with the Consumer in Mind

CHAIR: Laretta Ngakane, Marketing & Communications Specialist, MAKEDA INITIATIVES

11.50

Delivering Successful Services in East Africa: Village Phone Case Study

Richard Mwami, Senior Manager, Public Access, MTN UGANDA

OPERATOR

12.15

Next Steps for Roaming Strategies in East Africa

Makrine Abukah, Roaming Services Manager, SAFARICOM, Kenya

OPERATOR

12.40

Interactive Q&A Session

An opportunity for the audience to question the speakers so far, and the Chair

13.00

Networking Lunch & Exhibition Visit

14.20

Pricing Strategies in a Highly Competitive Market

Joe Kimani, CEO, FLASHCOM, Kenya

OPERATOR

14.45

Who Are the End-Users? Debating Segmentation Approaches for East African Operators

Deng Malok, Managing Director, BILPAM TELECOMMUNICATIONS CO. LTD, Sudan

OPERATOR

15.10

How to Reach Positioning and Marketing Strategies that Ensure Differentiation

Dick Omondi, Marketing Director, VODACOM TANZANIA

OPERATOR

15.35

Networking Coffee & Exhibition Visit & close of Stream A – join Closing Keynote

About Nairobi

Kenya's capital city has risen in a single century to become a thriving modern capital and business centre. Today's Nairobi is still the safari capital of Africa but the city has quickly caught up with the world. Nairobi has become one of Africa's largest and most interesting cities.

Just outside the city is Nairobi National Park, 113 sq km of plains, cliffs and forests. The park is home to large herds of zebra, wildebeest, buffalo, giraffe and more. Rhino, cheetah and a large number of lions are all found here, living within 20 minutes of the centre of town.

Further out of town, the spectacular 27m deep 'Fourteen Falls' waterfalls at Thika are perfect for a scenic day trip. Nearby Ol Donyo Sabuk National Park is centred around an imposing 2,146m mountain.

About the Safari Park Hotel

The history of the Safari Park Hotel dates back to the independence of Kenya when the buildings were converted into the hotel and the gardens landscaped. New buildings and restoration work was done from the mid-1970s and restored the hotel to the high standard it is now.

There are 204 rooms, including 35 luxury suites, and each room has a personal balcony overlooking the gardens. Rooms are equipped to the highest standard and have internet access for the business traveller. There is a range of bars, dining choices, a casino and the conference facilities hold up to 1000 delegates.

For more information:

The Safari Park Hotel
Thika Road, Kasarani,
PO Box 45038, Nairobi, Kenya

Online Networking Tool

Our bespoke online networking service enables you to contact other pre-

registered attendees, pre-, during and post-show. This simple online service offers a secure and private environment to extend your networking opportunities beyond the 2 conference days.

Pre-registered show attendees including delegates, exhibitors, speakers, and press are sent a unique login 2-3 weeks in advance of the show to allow plenty of time to make introductions and schedule meetings. We keep the service open for 3 months post-show for you to catch up with anyone you missed or to continue the debate.

All of the speaker presentations are available to download from the networking tool post-event.

East Africa – a hot-spot of growth and potential

Coming back to Kenya after a 2008 event in Tanzania, East Africa Com returns as the only regional meeting place for operators, regulators, investors and suppliers to network and debate the future of communications in their marketplace and to network with colleagues.

All stands are now sold or reserved. For last chance sponsorship opportunities or to join the waiting list, call +44(0) 20 7017 5249 or email corrie.thompson@informa.com

EXHIBITION STANDS SOLD OUT

The following leading suppliers are already confirmed at East Africa Com 2009:

Alcatel-Lucent • Astellia • Belgacom • Comfone • DZ Card • ECI Telecom • Econet Wireless • EDCH • Ellams • Equatel • Ericsson • eServGlobal • Gateway • Harris Stratex • Huawei • Intracom • ITS • Jinny Software • Kathrein • MCTel • NamTech • Neon Worx • Oberthur Technologies • Oracle • Sagem Orga • Starhome • Takarub Communications • Tele-Pak • Thuraya • Total tel Int'l • Tramigo • Velocity • WIOCC • Yahsat

"It is a great opportunity to build up a live network among people working for Africa"

(RL, Cisco Systems)

How will your company benefit from investing in East Africa Com?

- **Meet the region's decision makers all under one roof:** Our forward-thinking agenda boasts heavyweight keynote speakers and attracts a high-level audience. Therefore the visitors to your stand are of supremely high-level – and what's more, having heard the latest practices and solutions in the conference sessions, they are in buy-mode.
- **Position your company as a market leader:** Participation offers you brand awareness in front of the key decision-makers of the region's leading telcos – people with whom it would otherwise have taken you weeks, possibly months, to have secured face-to-face conversations.
- **Break into or develop your business in a growing market:** No other event can provide so many potential clients in one place over two days, shorten the sales process and generate more leads. The opportunity to demonstrate your products, answer questions and overcome objections is invaluable.

Don't miss out on the last chance sponsorship opportunities - contact us today!

2009 Sponsors

Since starting its operations in Africa in the 1890s, Ericsson has become the leading supplier of telecommunications equipment and services to mobile and fixed network operators in the region. Ericsson's Market Unit sub-Saharan Africa (MUSA) covers 43 African countries, counts close to 70 mobile and over 20 fixed-operators in sub-Saharan Africa as customers, and has more than 50 percent market share in the GSM space. Headquartered in Woodmead, Johannesburg with support from regional hubs in Nigeria, Kenya and Senegal, Ericsson's involvement in the region spans the full spectrum of telecoms, from infrastructure to value-added services.

Huawei Technologies is a world-leading telecom solutions provider focused on building long-term partnerships with telecom operators. Through our passionate employees and unmatched R&D capabilities, we can react quickly to customers' needs with a comprehensive, customized set of offerings. Huawei's products and solutions are deployed in over 100 countries and serve 35 of the world's top 50 operators, as well as over one billion users worldwide. In 2007, Huawei recorded USD16 billion in contract orders, 72 percent generated from international markets, with USD 2 billion from Sub-Saharan Africa Region. Together with our partners, Huawei endeavors to continue enriching life in East Africa through Communication.

Econet Wireless Kenya is 70 percent owned by Johannesburg-based Econet Wireless International. Essar Communications Holdings Ltd., a unit of Mumbai, India-based Essar Group, owns 49 percent of Econet Wireless International and by extension, management rights of Econet Wireless Kenya. Essar Communications has a joint venture with the Vodafone Group, called Vodafone Essar, which is one of India's largest cellular service providers, with over 55 million subscribers. Essar owns 'The MobileStore', India's largest national retail chain of mobile phone stores. It has a major presence in the telecom infrastructure space with one of the largest investments in telecom towers. Essar operates India's second largest outsourcing services business operating under the Aegis brand, with 31 centres in the Philippines, Costa Rica, USA and India. Essar Global Limited (EGL) is a diversified business corporation with a balanced portfolio of assets in the manufacturing and services sectors of Steel, Energy, Power, Communications, Shipping Ports & Logistics, Construction and Mining & Minerals. Essar employs more than 50,000 people across offices in Asia, Africa, Europe and the Americas.

Nokia Siemens Networks is a leading global enabler of communications services. The company provides a complete, well-balanced product portfolio of mobile and fixed network infrastructure solutions and addresses the growing demand for services in the telecommunication market. Nokia Siemens Networks employs approximately 20,000 service professionals worldwide. Nokia Siemens Networks is a leading telecommunications infrastructure provider with operations in +150 countries. The company is headquartered in Espoo, Finland. Nokia Siemens Networks started operations on April 01, 2007 as a result of 50-50 joint venture between Siemens Networks and Nokia Networks Business. Based on the benefits of scale, global reach, a deep understanding of operator business, an industry-leading research and development organization, Nokia Siemens Networks delivers a wide range of services, products and solutions to customers. Today, communications service providers require end-to-end solutions. Nokia Siemens Networks can help change the way they conduct business and capture value, by generating new revenue streams and / or reducing their cost.

Alcatel-Lucent (Euronext Paris and NYSE: ALU) is the trusted partner of service providers, enterprises and governments worldwide, providing solutions that deliver voice, data and video communication services to end-users. A leader in fixed, mobile and converged broadband networking, IP technologies, applications and services, Alcatel-Lucent leverages the unrivalled technical and scientific expertise of Bell Labs, one of the largest innovation powerhouses in the communications industry. With operations in more than 130 countries and the most experienced global services organization in the industry, Alcatel-Lucent is a local partner with a global reach. Alcatel-Lucent achieved revenues of Euro 17.8 billion in 2007 and is incorporated in France, with executive offices located in Paris. For more information, visit Alcatel-Lucent on the Internet: <http://www.alcatel-lucent.com>

As a wireless technology industry leader, QUALCOMM possesses the innovative vision, technology and proven track record to enable advanced multimedia and business solutions and services to support and drive the success of the entire wireless value chain – operators, manufacturers, developers, publishers, content providers and end users. Today, there are existing or planned CDMA networks in more than 25 sub-Saharan African countries. QUALCOMM is committed to nurturing long-term partnerships with African countries and, in August 2006, opened its permanent regional office in Johannesburg, South Africa to facilitate direct interaction with policymakers, regulators, operators, business communities and other stakeholders. Our regional operations not only reflect QUALCOMM's long-term commitment to Africa, but also allow us to maintain close proximity to the people, governments and important industry events that are driving the African telecommunications industry forward.

Associate Sponsor

eServGlobal invents smart communication and payment services for telecommunications service providers operating on all generation networks. **** To qualify for the free 'Operator/Service Provider' passes, companies must meet the following criterion: Provision of telecommunications services to private/ domestic/residential consumers and/or business/enterprise customers as the primary activity of the business in the region in which a given World Series event is taking place.**

'Service Providers', as we define them may or may not own and operate telecommunications network infrastructure. MVNOs, VNOs, some resellers and other 'virtual' service providers therefore qualify. 'Operators/Service Providers' as we define them do NOT include businesses whose principal activity is the sale of connectivity, bandwidth, backhaul, interconnection services etc. on a wholesale basis to other carriers/operators/service providers. In the case of subsidiary carrier services/wholesale businesses whose parent companies are service providers (as defined above) in other markets, we do not consider these to qualify for 'Operator/Service Provider' passes. These definitions, and their application in particular cases, are at the discretion of Informa Telecoms & Media.

TERMS AND CONDITIONS FEE: The conference is FREE to all Operators & Regulators as listed in the pricing options on this page. Free attendance **ONLY** applies until the 9 March 2009. Multiple booking discounts will only be valid for delegates from the same company when booked as a group at the same time. All fees include lunch, refreshments and conference documentation

CANCELLATIONS: If you should cancel a conference registration before 16 March 2009 you will receive a refund less a cancellation charge of €199 for all bookings. We regret that no refunds can be made for cancellations received after this date. We welcome substitute delegates at any time. It may be necessary for reasons beyond the control of the organisers to alter the content and the timing of the programme or the identity of the speakers.
